 Paper Dated: August 4, 2005  
 Attorney Docket No. 1376-045200

This application is the United States National Phase of PCT Application No. PCT/AU03/00360, filed March 26, 2003, corresponding and claiming priority to Australian Patent No. 1361, filed March 26, 2002. All but one of the references identified in Form PTO/SB/08A were cited in an International Search Report dated May 15, 2003 in the underlying PCT application. DE 1258344 was newly cited in the corresponding International Preliminary Examination Report dated July 20, 2004. The May 20, 2005 Notice of Acceptance of Application under 35 U.S.C. § 371 and 37 C.F.R. § 1.495 indicates that a copy of the International Preliminary Examination Report, a copy of the International Search Report, and copies of the references cited in the International Search Report have been received by the United States Patent and Trademark Office. Therefore, no copies of those documents are included herewith. The relevance of JP 2002/265017, for which an English-language abstract is enclosed herewith, is indicated in the International Search Report. The relevance of DE 1258344, a copy of which is enclosed herewith, is indicated in the International Preliminary Examination Report. No English-language abstract or translation of DE 1258344 is readily available to the Applicants.

No fee is believed to be due for the filing of this Information Disclosure Statement as it is being submitted before the mailing date of a first Office Action on the Merits. Nevertheless, the Commissioner of Patents and Trademarks is hereby authorized to charge any fees which may be required to Deposit Account No. 23-0650. One (1) original and two (2) copies of this Information Disclosure Statement are enclosed.

Respectfully submitted,
